Mankind would not
have made the new age,
since before the origin
at the end of the last age,
that alone would have
it it very much for...

In 1949, they were
still in their school,
and a teacher
in 1957, the teacher
of the school, who was
born in 1949, but the teacher
was a story about a school teacher
who save the world.

Twentieth Century Boys

ともだち

浦沢直樹

Humans would not have made the new age,
accelerating the ends of the end of the last century,
that almost wiped them out... if it weren't for "them".
In 1989, "they" who were still in their youth, created a symbol.
In 1997, as the footprints of the coming disaster slowly
start to show out, the symbol revives.
This is a story about several boys, that save the world.
